

Eye Protection Waiver

Warning.

You may not sign this waiver unless you have read the below information in its entirety.

Eye injury while discharging any firearm is a **foreseeable danger** of the shooting sports. The effect of such injury can be devastating, and can mean permanent loss of vision. The risk of injury can be greatly reduced by the use of appropriate shooting glasses, or even prescription eyeglasses in the case of those who require vision correction. It is the standing policy of the Newport Rifle Club that appropriate eye protection shall be worn while shooting any pistol or rifle on the indoor range.

By signing where indicated below, the named individual may use the indoor range without eye protection under the following circumstances:

*** The only pistols or rifles being used on the range BY ANY PERSON are rim fire rifles (.22 caliber), air rifles or air pistols

*** In the case of minors, there is adult supervision of the marksmanship activity

The undersigned individual, or in the case of a minor, the parent or legal guardian, hereby **assumes the risk** of injury due directly or indirectly to failure to use appropriate eye protection. Such individual, or parent or legal guardian, for themselves, their heirs or assigns, hereby **hold harmless** the Newport Rifle Club, its officers, members or guests, and release any cause of action resulting from failure to use such eye protection. Furthermore, the below named individual, parent or legal guardian agrees that, in the event any legal action is taken against the Newport Rifle Club, its officers, members or guests, notwithstanding the outcome of such legal action, that they shall **indemnify and otherwise pay any cost** accruing to such legal action, including the payment of judgments, fines, court costs or attorney fees.

By signing below, the named individual, or parent or legal guardian, agrees without reservation to the foregoing.
